

## **TITLE :**

jobC -Professional Networking Platform

---

## **OBJECTIVE:**

A user-friendly networking for student professionals to showcase their resume, skills, achievements, career details connecting directly with HR & recruiters seeking top talent. And a special section includes fully remote jobs.

---

## **INTRODUCTION:**

In today's competitive world, securing a job has become challenging for both freshers and experienced professionals. jobC is designed specially for students and working professionals. This platform allows users to create profile where they can showcase their resume, skills, achievement, certifications, and photographs.

Beyond self-presentation users will be able to connect with peers, view each other's profiles.

A core feature is its recruitment-centric design: HR professionals and recruiters from various organizations can search for suitable candidates based on skills, experience, education.

Only verified HR & recruiters will be allowed to post job openings
